13th International
Conference on ICT for
Development, Education & Skills

eLearning Africa – The Continent’s Home for Ideas, Innovation and New Solutions for Education, Training and Skills Development...

A unique event, Africa’s largest conference and exhibition on technology supported learning, training and skills development, eLearning Africa is a network of experts, professionals and investors, committed to the future of education in Africa.

Education and technology are changing Africa. They are key elements in the African Union’s 2063 Vision for a “transformed continent.”

African economies are growing faster than those of Europe or North America. Africa has the world’s youngest population too. So, equipping young Africans with the skills they need to compete is a vital part of ensuring continuing growth in the world’s most exciting continent.

If you want to understand how Africa is changing or to find out how

digital learning technologies can help you, your organisation or your community, you should be at eLearning Africa.

The 13th edition of eLearning Africa will be held from 26 – 28 September, 2018 in Kigali, Rwanda, the booming capital city of Rwanda at the Kigali Convention Centre. The conference is being organised by ICWE GmbH and the Rwanda Convention Bureau under the patronage of the Republic of Rwanda. Kigali has become known for its ICT-based initiatives in a variety of sectors and services. The city’s enthusiasm for new, tech-based solutions has led observers to refer to it as the “Innovation City of Africa”.

“I loved the final debate. It was wonderfully interactive but non-combative, which worked really well. The debate topic was pertinent and relevant, and while the truth always lies somewhere in between the two poles, I think that it sparked fruitful discussion.”

Mignon Hardie, FunDza Literacy Trust, South Africa

PROGRAMME

The PROGRAMME includes core dialogues, debates, discovery demos, knowledge exchange sessions, knowledge factories, networking meet-ups, panel talks, plenary sessions and poster presentations on specific topics and informal networking opportunities in which practitioners share their experiences, ideas, new information and perspectives.

→ 1000+ participants from over 70 countries, with 85% from Africa, to share their expertise and experiences

→ An extensive exhibition featuring the leading international eLearning manufacturers, suppliers and service providers

→ 250+ speakers contributing to 50+ interactive sessions and talks

→ The unique cross-sector between education, public, government and business.

“The conference always brings something new to the table. It makes everyone look at things in a different perspective and has so many takeaways. I enjoyed every moment of it!”

Speaker/Facilitator,
eLearning Africa 2017

↓ 13th International Conference on ICT for Development, Education & Skills

“The best part about eLearning Africa is making new networks and learning about new eLearning initiatives in my own country 3000km away from home.”

Gabriel Konayuma, Ministry of Higher Education, Zambia

..... MINISTERIAL ROUND TABLE

eLearning Africa is also the venue for MINISTERIAL ROUND TABLE (MRT), an annual meeting of African ICT and Education ministers, who take part in a day-long discussion of key issues affecting education, training, skills and technology before the official opening of the main conference

Participant, eLearning Africa 2017

..... EXHIBITION AREA

The EXHIBITION AREA: the leading international eLearning manufacturers, suppliers and service providers present their latest products and services. Most participants see the exhibition as an important meeting point for professional interaction and networking within the conference.

“My favourite moment at eLearning Africa was wrestling ICTs to serve the community and learning while increasing ease and efficiency.”
